Independent Auditor's Review Report on the Interim Condensed Financial Statements

To the Shareholders

United Wire Factories Company

(A Saudi Joint Stock Company)

Riyadh, Kingdom of Saudi Arabia

Introduction

We have reviewed the accompanying interim condensed statement of financial position of United Wire Factories Company ("the Company") as of June 30, 2022 and the related interim condensed statement of profit or loss and other comprehensive income, for the three month and six month periods then ended, and the interim condensed statements of changes in shareholders' equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed financial information in accordance with International Accounting Standards 34 – "Interim Financial Reporting" (IAS 34) that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial information is not prepared, in all material respects, in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

Mass Steel - Duba	3555102116
Vision Gate for Real Estate Services Company	1010716858

2. BASIS OF PREPARATION

Basis of compliance

The accompanying financial statements have been prepared in accordance with International Accounting Standards 34 – "Interim Financial Reporting" (IAS 34) as endorsed by Saudi Organization for Chartered and Professional Accountants ("SOCPA").

Measurement basis

These financial statements are prepared on a historical cost basis except for defined benefit plans which are measured at present value of future liabilities using the Projected Unit Credit Method. In addition, these financial statements are prepared using the accrual basis of accounting and the concept of continuity.

Functional and presentation currency

These financial statements are presented in Saudi Riyal ("SR"), which represent the Company's functional currency.

(A Saudi Joint Stock Company)

Notes To the Interim Condensed Financial Statements (Unaudited) - Continued

For The Six-Month Period Ended June 30, 2022

2. BASIS OF PREPARATION - Continued

Judgments and estimates

The preparation of financial statements in accordance with International Accounting Standards 34 – "Interim Financial Reporting" (IAS 34) requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates. Estimates and assumptions are reviewed on an ongoing basis. Adjustments to accounting estimates are included in the period / periods in which the estimates are adjusted and in subsequent periods affected by the adjustment.

However, as indicated in note. (16), the Company has reviewed the important sources of uncertainties shown in the last annual financial statements against the background of the spread of the new Corona epidemic (Covid 19). The Management believes that uncertainty remain the same as those shown in the most recent annual financial statements. The Management will continue to monitor the situation and any required changes will be reflected in future reporting periods.

3. SIGNIFICANT ACCOUNTING POLICIES

Except for what has been mentioned below, the accounting policies applied to these interim condensed financial statements are the same as those applied to the financial statements for the year ended December 31, 2021, and accordingly these interim financial statements and the accompanying summary notes should be read along with the annual audited financial statements and related notes for the year ended December 31, 2021.

4. APPLICATION OF NEW AND REVISED IFRS'S

New Standards, Amendment to Standards and Interpretations

There are no new standards issued; however, there are number of amendments to standards which are effective from January 1, 2022 and have been explained in the Company's annual financial statements, but they do not have a material effect on the Company's interim condensed financial statements.

(A Saudi Joint Stock Company)

Notes To the Interim Condensed Financial Statements (Unaudited) – Continued For The Six-Month Period Ended June 30, 2022

5. INFORMATION ON SEGMENT REPORTING OPERATING SEGMENTS

The segment is a separate and distinct segment of the Company engaged in business activities that result in the recognition of revenues or expenses. Operating segments are disclosed on the basis of internal reports reviewed by the chief operating decision maker, who is responsible for resource allocation, performance evaluation and strategic decision making on operational segments. Operating segments with similar economic characteristics, products, services and similar customer categories are aggregated and recorded where possible as sectors to be reported.

Basis of division

The Company has the following two strategic sectors. These sectors provide different services and are managed separately because they have different economic characteristics - such as sales growth trends, rates of return and capital investment level- and they also have different marketing strategies.

The following summary shows the operations of each sector

Sector	Operations
	The construction sector includes rebar activities, floor gratings, spikes, fence nets,
Construction sector	barbed wire and wire mesh.
	The civil sector includes the activities of the manufacture of wire feedstock, metal
Civil sector	and covered clothes hangers, bed's metal slats and metal pins.

Due to the nature of the Company's business and the structure of its management, it is not possible to allocate the items of current assets and liabilities to the various operating segments. All the Company's assets are located within Saudi Arabia and there are from export revenues.

Information on segment reporting

The information for each sectorial report is listed below. The gross profit of the segment is used to measure the performance, because the management considers that this information is the most appropriate to assess the results of the relevant sectors relating to other enterprises operating in the same industries.

13. BASIC AND DILUTED EARNINGS PER SHARE

Basic / diluted earnings per share is based on the profit attributable to ordinary shareholders and the weighted average number of ordinary outstanding shares. Earnings per share for the period ended at June 30, 2022, and June 30, 2021 were calculated on the basis of the weighted average number of outstanding shares during the period which is 35,100,000 shares (2021: 35,100,000 shares. there are no dilutive potential ordinary shares.

14. CAPITAL MANAGEMENT

The objectives of the Company's capital management are to ensure the Company's ability to continue as a going concern and to provide sufficient returns to shareholders by optimizing the capital structure. The Company manages capital and is subject to adjustments in light of changes in economic conditions and other variables that include risks related to the Company's assets. In order to maintain or adjust the capital structure, the Company may adjust dividend payments to shareholders, issue new shares or sell assets to reduce its debt.

The Company's policy is to maintain a strong capital base in order to gain investor and market confidence and to ensure future business development. The management monitors the return on equity and the level of dividends to shareholders. The Board of Directors seeks to maintain a balance between the large potential revenues obtained by increasing the levels and safety benefits that can be achieved by maintaining a strong capital position. The Company aims to achieve an adequate return on capital. The return for the year ended June 30, 2022 was 12 % (June 30, 2021: 8.6 %). The Company monitors capital using the ratio of "net debt adjusted" to "adjusted equity". For this purpose, net debt adjusted is defined as total liabilities less cash and bank balances. Adjusted shareholders' equity consists of all elements of equity, if any. The Company has sufficient funding to meet all of the Company's obligations.

15. DIVIDENDS

During the first quarter of 2022, in accordance with the Board of Directors resolution dated in Jumada Al-Akhirah 28, 1443H corresponding to January 31, 2022, the Company declare dividends amounting of SR 15,795,000 by distribution of SR. 0.45 per share and distributed in February 21, 2022, During the first quarter of 2021, in accordance with the Board of Directors resolution dated on Rajab 4, 1442H corresponding to February 16, 2021, the Company declared dividends amounting of 35,100,000 Saudi Riyals distributed on March 3, 2021.

16. FINANCIAL INSTRUMENTS - FAIR VALUE AND RISK MANAGEMENT

The Company's financial assets consist of bank balances, customers and due from related parties. The Company's financial liabilities consist of trade payables and other financial liabilities. The Company does not currently use derivative financial instruments to manage these risks that may exposed to.

General framework for risk management

The Board of Directors is generally responsible for the development and follow-up of the Company's overall risk management framework. The Company's risk management policies are established to identify and analyse the risks that face the Company and to establish appropriate risk limits and controls as well as risk control and adherence to established limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. Through its training and management standards and procedures, the Company aims to maintain a disciplined and constructive control environment through which all employees recognize their roles and obligations.

The Company's Audit Committee oversees how the Management monitors compliance with the Company's risk management policies and procedures, as well as reviews the effectiveness of the overall risk management framework in relation to the risks faced by the Company. The Audit Committee shall be assisted in the performance of this oversight role by an office specialized in internal audit work. The internal audit office shall periodically review and review risk management controls and procedures and report on the results of such work to the Audit Committee.

Credit risk

Credit risk is the risk that the Company will incur a financial loss if the customer or counterparty to a financial instrument fails to meet its contractual obligations and arises mainly from trade receivables, cash and balances with banks and due from related parties.

The fair value of financial assets represents the maximum exposure to credit risk.

Trade receivables

The Company's exposure to credit risk is mainly affected by the individual characteristics of each individual customer. However, management also considers factors that may have an impact on the credit risk of the customer base, including the risk of default in the customer segment in which the customer operates.

The Company has established a credit policy whereby each new customer is individually analysed to verify its creditworthiness before presenting the Company's standard payment terms and conditions. The Company's review includes external ratings if available and, in some cases, bank references. Sales limits are set for each customer and reviewed quarterly.

The Company seeks to limit its exposure to credit risk from trade and other receivables by setting a maximum repayment period of two months for most customers. Note that the company grants the advances of employees by guaranteeing the benefits of employees, not exceeding 60% of the value of the benefits due to the worker.

The impairment of trade receivables as at June 30, 2022 was amounted 3,736,542 Saudi riyals (December 31, 2021 was amounted 3,680,077 Saudi riyals) in accordance with the company's policy and the IFRS (9) Financial Instruments, in addition to a re-examination of management's initial estimates of the impact of the precautionary procedures for the (Covid 19), the company also maintains guarantees for most of the balances of trade receivables.

Written off receivables		(813,835)
Balance at the end of the period / year	3,736,542	3,680,077

Concentrations of maximum exposure to credit risk

Concentrations arise when a number of counterparties engage in similar activities or activities in the same geographical area or have similar economic characteristics that may render their ability to meet contractual obligations similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of a company's performance to developments affecting a particular business segment or geographical area. The Company's financial assets are fully located within the Kingdom of Saudi Arabia.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its obligations associated with its financial liabilities settled by payment in cash or through other financial assets. The Company's approach to liquidity management is to ensure that it always has sufficient liquidity, to the extent possible, to meet its obligations when due, under normal and critical conditions, without incurring unacceptable losses or jeopardizing the Company's reputation.

Commodity price risk

The Company is exposed to fluctuations in the iron price market. The Company sells certain iron products on a temporary basis. The management monitors iron prices and changes the selling prices according to market changes under the appropriate circumstances of the Company.

Market risk

Market risk is the risk that the fair value of cash flows of financial instruments will fluctuate due to changes in market prices. Market risk arises from positions in interest rates, foreign exchange and equity products, all of which are subject to general and specific market movements and changes in the level of volatility of market or price rates such as cost prices and foreign exchange rates.

Foreign exchange risk

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to fluctuations in foreign exchange rates. The Company manages foreign exchange risk based on the limits determined by the management and the continuous evaluation of the Company's existing positions and current and projected movements in foreign exchange rates.

Management believes that the Company is not exposed to significant foreign exchange risk.

The reasonably probable rise in the euro and the US dollar against all other currencies at the end of the period will affect the measurement of financial instruments denominated in foreign currencies as well as equity and profit or loss in the amounts shown below. This analysis assumes that all other variables remain constant, specifically commission rates, and ignores any impact on expected sales and purchases.

Interest rate risk

Interest rate risk arises from the volatility of the fair value or future cash flows of a financial instrument due to changes in market rates. The Company is not currently exposed to significant interest rate risk on its assets and liabilities.

(A Saudi Joint Stock Company)

Notes To the Interim Condensed Financial Statements (Unaudited) - Continued

For The Six-Month Period Ended June 30, 2022

17. OPERATING LEASES CONTRACTS

Contracts leases as lessee

The Company leases a number of warehouses and retail outlets under operating leases. The lease period is one year with the option to renew the lease after one year. Lease payments are recognized each year to reflect prevailing market leases. Some leases provide additional rental payments based on changes in local market indices.

Lease contracts for warehouses and branches have been concluded for many years with the Saudi Industrial Cities Organization for a period of not less than 25 years, renewable, representing lease contracts for land and buildings. The Company determines that the elements of land and buildings for warehouse and branch leases are operating leases. The rent paid to the owner is adjusted according to prevailing market rents at regular intervals and the Company has no interest in the residual value of the land and buildings. As a result, it was determined that all the risks of land rents and buildings are significantly with the owner.

Minimum future lease payments

At the end of the year, the minimum future lease payments under irrevocable leases were due as follows:

June 30, 2022	
June 30, 2022	December 31, 2021
1,359,877	824,909
